

Help a student during these challenging times!

COMPUTER DONATION DRIVE

Do you have any laptops, Chromebooks, or desktop computers that you no longer need?

Consider giving your old tech to the Electronic Recycling Association (ERA). They will remove old data on the devices and refurbish the items for families in need in our community.

Why donate?

- Save a trip to the Eco Station
- Help a student connect to their education and social activities
- Contribute to the sustainability of our environment through a circular economy

We need your help!

To arrange pick up of your used devices,
send an email to Kelly at
Kelly.Holland@reachedmonton.ca
